

Advanced Daily Supplement with Phytonutrient Power

**Fortified with Vitamins & Minerals
Supports Your Cat's Overall Well-being & Natural Defenses**

Item #103012- 130 Grams - Approx. 360 Chewables Retail: \$17.95 Preferred Customer: \$13.95

Why should you give your cat a nutritional supplement?

Most of us take supplements and eat right to get all the nutrients necessary to avoid disease and ensure good health. The same is true for the four-legged member of your family ... your precious feline. Your cat needs a high quality nutritional supplement daily because:

All cats have different nutritional requirements. Age, activity level, environment, genetics, breed and other factors determine your cat's special needs. Although a good premium food will provide a solid foundation, food alone cannot supply all the nutrients necessary to fulfill those unique requirements. For example, a nervous cat needs more B vitamins than a calm kitty.

A deficiency of just one or more nutrients can leave your cat vulnerable to disease.

Nutrients that specifically support your cat's natural defenses are vital to good health.

Give Your Cat Advanced Daily Supplement with Phytonutrient Power

We believe HealthyPetNet™ Advanced Daily Supplement with Phytonutrient Power is so superior that it will set the standard for feline nutritional supplementation.

This cutting-edge formula approaches feline nutrition in several unique and effective ways by providing:

A broad nutrient spectrum, mainly derived from natural foods such as patented stabilized rice bran (and germ) and herring meal.

Plant sterols (beta-sitosterol) and other plant nutrients, which help balance and support natural defenses.

Couch grass and alfalfa, which help support the liver and kidneys ... important organs that process and eliminate organic wastes and support a healthy urinary tract.

Flaxseed meal for healthy skin and coat and general well-being.

Nutrients from Natural Foods... Rice Bran (& Germ) & Herring Meal

Recent medical science has demonstrated that natural foods contain a full array of biologically active compounds that work together to enhance each other. This is important because the body can better utilize natural foods than isolated nutrients. Among other natural foods, Advance Daily Supplement contains:

Stabilized Rice Bran (and Germ) ... patented and non-chemically treated, this rich food provides protein, vitamins (one the richest sources of vitamin B), minerals and over 70 powerful antioxidant compounds. Antioxidants defend against dangerous free radical damage, which many scientists believe are the cause of accelerated aging, cancer and many other diseases.

Herring Meal ... rich in protein, omega fatty acids and an excellent source of vitamins A, D and E.

IMPORTANT NOTE: Advanced Daily Supplement's Guaranteed Analysis displayed in this document and on the product's label does not reflect the wide array of individual nutrients contained in this formula, which are derived from natural foods. It simply reflects the extra nutrients added for balance.

Natural Defenses ... Beta-Sitosterol & Other Nutrients

Medical studies have associated a reduced risk of many health problems with a diet high in fruits and vegetables and have concluded that many of the benefits are due to plant sterols. Plant sterols are fats present in the fibers of every plant. Advanced Daily Supplement contains beta-sitosterol (a plant sterol) and other phytonutrients to help balance and support natural defenses.

The health benefits of beta-sitosterol and the balance of the defense system are currently being studied. Balance is very important ... If the body is fighting off an infection, it defends the attack by increasing its natural defenses. On the other hand, if the body suffers from an allergy or an autoimmune problem, its natural defenses become over stimulated and results in unwanted symptoms. Balance helps increase or calm the body's natural defenses when needed.

Rice bran (and germ), herring meal, flaxseed meal and other herbs all work together with beta-sitosterol to further support a healthy defense system.

Efficient Processing & Elimination ... Couch Grass & Alfalfa

Medical scientists believe the precise and balanced relationship between nutrition and elimination is vital to good health. If there is an deficiency or excess the body cannot correct through supplementation or elimination, the body will try to compensate by shutting a system down or storing waste materials wherever it can.

Couch grass and alfalfa help support the healthy function of the liver and kidneys ... important organs that process and eliminate organic wastes and support a healthy urinary tract ... especially important for cats.

Healthy Skin & Coat... Flaxseed Meal & Herring Meal

Healthy skin and a shiny coat are indicators of a cat's general health. Flaxseed meal and herring meal are rich in protein and omega 3, 6 and 9 fatty acids...all effective ingredients that send nutrients to support healthy skin and coat (which is made of 95% protein) as well as other important body systems.

Nutrients from natural foods, defense support, efficient processing & elimination, healthy urinary tract, vibrant skin & coat combined with a taste that cats cannot resist... Advanced Daily Supplement with Phytonutrient Power a highly effective supplement for your cat's health.

Other Nutrients Include: Vitamin A, Bioflavonoids, Carotenoids: B and A Carotene, Lycopene, Lutein, Zeaxanthine, Inulin, Chlorophyll, Glutamic Acid, Vitamin E Complex: 4 Tocopherols and 4 Tocotrienols, Vitamin B Complex, Vitamin C, Phytosterols: Beta-Sitosterol, Stigmasterol, Polyphenol Antioxidants: Proanthocyanidins, a-Lipoic Acid, Isovitexin, Enzymatic Antioxidants: Glutathione Peroxidase, Superoxidase Dismutase, Coenzyme Q10, Phospholipids: Phosphatidylcholine, FattyAcids, Minerals: Calcium, Potassium, Magnesium, Phosphorous, Iron, Copper, Zinc, Chromium, Essential Amino Acids.

Ingredients: Chicken Meal, Ground Rice, Oatmeal, Ground Barley, Herring Meal, Ground Flaxseed, Stabilized Rice Bran, Chicken Fat (preserved with natural mixed tocopherols and rosemary extract), Natural Liver Flavoring, Taurine, Alfalfa Sprouts, Couch Grass, Dehydrated Lactobacillus Acidophilus Fermentation Product, Brewers Dried Yeast, Potassium Chloride, Salt, Phosphoric Acid, Plant Sterol (beta-sitosterol), Niacin, d-Pantothenic Acid, Zinc Oxide, Zinc Proteinate, Riboflavin Supplement, Ferrous Sulfate, Pyridoxine Hydrochloride, Manganese Proteinate, Manganous Oxide, Copper Proteinate, Copper Sulfate, Folic Acid, Biotin, Vitamin B-12 Supplement, Ethylenediamine Dihydriodide, Thiamine Mononitrate, Sodium Selenite, Vitamin A Acetate, Vitamin D-3 Supplement, Vitamin E d I Alpha Tocopherol Acetate.

Guaranteed Analysis - Per Tablet:

Crude Protein (Min.) 27% - Crude Fat (Min.) 10%
Moisture (Max.) 12% - Crude Fiber (Max.) 2.5%

Stabilized Rice Bran	67.5 mg.	Iron	585 mcg.
Ground Flaxseed	67.5 mg.	Thiamine	495 mcg.
Herring Meal	67.5 mg.	Pyridoxine	396 mcg.
Taurine	11.25 mg.	Manganese Proteinate	315 mcg.
Alfalfa Sprouts	9 mg.	Manganous Oxide	270 mcg.
Couch Grass	9 mg.	Copper Proteinate	180 mcg.
Dehyd. Lactobacillus		Copper Sulfate	90 mcg.
Acidophilus Fermentation		Folic Acid	49.5 mcg.
Product	9 mg.	Biotin	13.5 mcg.
Brewers Dried Yeast	9 mg.	Vitamin B-12	11.25 mcg.
Niacin	4.46 mg.	Iodine	9 mcg.
Plant Sterol(Beta-Sitosterol)	3.6 mg.	Selenium	1.35 mcg.
d-pantothenic acid	2.48 mg.	Vitamin A	198 I.U.
Zinc Oxide	1.12 mg.	Vitamin D-3	18 I.U.
Zinc Proteinate	765 mcg.	Vitamin E	2.25 I.U.
Riboflavin	643.5 mcg.		

Suggested daily dosage:

Less than 5 lbs: 1 to 3 chewables
5 to 15 lbs: 3 to 4 chewables
Over 15 lbs: 4 to 6 chewables

Start with one half the suggested dosage, gradually increasing to recommended dosage within a week. Do not exceed suggested daily
