Suggested Retail \$27.95
Preferred Customer \$24.49

40 lb. Bag: Item: #401041
Suggested Retail: \$52.95
Preferred Customer: \$46.95

100% Complete & Balanced Nutrition:

Your dog relies on you for its health, happiness and well-being. One of the most important decisions you can make for your dog or puppy is to feed it a high quality pet food, rich in the fundamental nutrients it needs to maintain vitality and good health.

Scientifically formulated by Dr. Jane Bicks, a veterinarian recognized nationally as a foremost authority in the natural treatment of animals. Life's Abundance™ uses only fresh, natural, wholesome ingredients designed to provide 100% complete nutrition in accordance with AAFCO feeding protocols for all life stages.

This new generation dog food contains whole foods such as apples, spinach, carrots, alfalfa and whole garlic which are nutrient dense in antioxidants, phytochemicals and other health promoting compounds not previously found in processed dog foods. Each ingredient in Life's Abundance™ was carefully selected to work in harmony with the others to give your dog the optimal nutrition it needs to live a longer, healthier life. Life's Abundance™ is the ONLY dog food on the market today that uses ActiVin™ grape seed extract which contains some of the most powerful antioxidants yet discovered.

Why is Life's Abundance™ Better for My Dog?

Life's Abundance™ contains **NO by-products**. Meat by-products can include portions of animals such as necks, feet, undeveloped eggs and intestines.

Life's Abundance™ contains **NO artificial colors, flavors or chemical preservatives**. Our premium formula is preserved with natural mixed tocopherols (vitamin E) and not BHA, BHT or ethoxyquin, which many professionals consider harmful to animals.

Life's Abundance™ contains high quality **ANIMAL protein sources and NO corn, wheat or dairy**. Many dog food manufacturers use cereal, such as corn or wheat, as their main protein source. Life's Abundance™ uses animal proteins, including chicken meal, egg, and fish meal, all derived from human-grade processing plants.

Our high quality **chicken** meal is made from dried whole chicken meat and skin. Removing the water and moisture from the chicken provides a more concentrated form of protein. **Egg**, a complete protein, is one of the most digestible forms of protein and contains many nutrients including vitamins A, B, E, K, biotin, sulfur and amino acids...all needed for cell growth. **Fish Meal**, another high quality protein source, is rich in Omega-3 Fatty Acids, great for the health of your dog's skin, coat and overall well-being.

Life's Abundance™ is nutrient dense with **vitamins, minerals, fats and essential fatty acids** for your dog's optimal health. Many of the nutrients used in our dog food come from natural whole food sources just as Mother Nature intended. Whole foods, like carrots, spinach, celery, apples, garlic and alfalfa leaf, supply flavonoids and other important phytochemicals which have become the new frontier in the nutritional sciences. We've also added ActiVin™ grape seed extract, one of the finest and most potent antioxidants known today.

Life's Abundance™ uses **chelated minerals** because a proper balance of minerals is essential for good health and chelated minerals are more easily absorbed than non-chelated.

Life's Abundance™ contains **five probiotics**, such as Lactobacillus Acidophilus, which help promote a healthy digestive tract by maintaining the delicate balance of friendly bacteria in your dog's intestines. This is important because the digestive tract is the barrier between whatever your dog eats and its blood stream. Probiotics also help keep stools regular.

Pet Owners Say

My Boston Terrier "Bosco" loves your food. I called up in a panic and needed the food "right away" and that is what I got.

My dog has been very "particular" about what he has been eating and my husband and I have been going up the wall with what we will feed him next. Needless to say, he loves your food, he is happier and we are happier parents. Thanks again,

SG, Davie, FL

Life's Abundance™ Premium Health Food for Dogs

What ingredients does the dog food contain?

Chicken Meal, Ground Brown Rice, Potato Product, Chicken Fat (Preserved with Natural Mixed Tocopherols (Vitamin E)) Dried Beer Pulp, Brewers Dried Yeast, Natural Flavors, Flax Seed Meal, Egg Product, Fish Meal, Salt, Calcium Carbonate, Potassium Chloride, L-Lysine, Carrots, Apples, Canola Oil, Alfalfa Leaf Meal, Celery, Lactobacillus acidophilus fermentation product, Lactobacillus casei fermentation product, Bifido bacterium bifidium fermentation product, Streptococcus faecium fermentation product, Aspergillus oryzae fermentation product, Whole Clove Garlic, Spinach, Grape Seed Extract, Vitamin E Supplement, Ascorbic Acid, Biotin, Niacin Supplement, d-Calcium Pantothenate, Vitamin A Acetate, Riboflavin Supplement, Vitamin B12 Supplement, Thiamine Mononitrate, Pyridoxine Hydrochloride, Menadione Dimethyl-pyrimidinol Bisulfate (Source of Vitamin K Activity), Citric Acid, Vitamin D3 Supplement, Folic Acid, Ferrous Sulfate, Zinc Sulfate, Zinc Proteinate, Iron Proteinate, Zinc Oxide, Copper Sulfate, Manganese Proteinate, Copper Proteinate, Manganous Oxide, Sodium Selenite, Calcium Iodate.

Guaranteed Analysis:

Crude Protein, not less than26.0%
 Crude Fat, not less than16.0%
 Crude Fiber, not more than 4.0%
 Moisture, not more than10.0%

Calorie Content: 460 kcal/cup (ME - metabolizable energy)

How can I be sure my dog is getting the nutrition

it needs? Life's Abundance™ is scientifically formulated by a leading veterinarian and nutritionist to provide the optimal nutritional value, palatability and digestibility for your dog's health and overall well-being. Animal feeding tests using the Association of American Feed Control Officials' (AAFCO) procedures substantiate that Life's Abundance™ Premium Health Food for Dogs provides complete and balanced nutrition for all life stages.

How much do I feed my dog per day? Feed your dog the suggested amount of Life's Abundance™ per day. Use the following chart as a guideline and adjust as needed for your dog's age and activity level. Keep fresh drinking water available at all times.

Weight of Dog (lbs.)	Suggested Daily Feeding Amount
Up to 10	1/3 to 3/4 cup
10 to 25	3/4 to 1 3/4 cups
25 to 50	1 3/4 to 2 3/4 cups
50 to 75	2 3/4 to 4 cups
Over 75	4 to 5 1/2 cups

You may find your dog needs to eat less of Life's Abundance™ Premium Dog Food than most supermarket brands. That's because Life's Abundance™ is more nutrient dense and doesn't contain the cereal & fillers found in other dog foods.

How should I switch my dog off its current food?

When switching from another dog food, make the transition gradually to help avoid digestive problems which can result from an abrupt change. Over a 7 to 10 day period, gradually add more Life's Abundance™ and less of the previous food until the transition is complete.

Can this food be fed to Puppies & Senior Dogs?

This food was formulated and fed and tested according to the nutritional profiles of the American Association of Feed Control Officials for all stages of life; puppy and senior included. If a food is high quality, there is no need to feed a puppy food. A puppy food generally has more calories per cup and the pellets are small. While some people think that puppies need more calcium than adults, according to AAFCO, both puppy food and adult food requires a 1/1 ratio of calcium to phosphorous; which our food has. This food is also great for senior dogs because it is highly digestible and contains the antioxidants and high quality protein that senior dogs require.

What is ActiVin and why have you added it to the dog food?

ActiVin™ is a powerful antioxidant derived from grape seed extract. More than 60 research presentations, publications and abstracts have reported on the exciting health benefits of ActiVin™. Studies prove ActiVin™ contains some of the most powerful antioxidants yet discovered ... far more potent than vitamins C, E and beta-carotene! ActiVin™ is extracted from premium quality red grape seeds by a patented water extraction process. This patented process ensures the extract contains a greater amount and a wider range of the NATURAL antioxidant properties from this important ingredient. Most other grape seed extracts use potentially dangerous chemicals which can leave residues and strip away many of the nutrients that the ActiVin™ process retains. Not only is ActiVin™ safe and healthful to consume, it's environmentally friendly to produce. No toxic chemicals are flushed down the drain and unlike pycnogenol, no trees are cut down for their bark.

Why are antioxidants important for my dog?

Antioxidants defend us against dangerous free radicals which can destroy cell membranes and damage DNA. Free radicals are continually being produced by your dog's body as part of its normal aging process. Your dog is also exposed to external sources such as second hand smoke, pesticides, pollution, excess sunlight, which also produce free radicals. Scientists believe that free radicals may be a root cause of more than 60 chronic and degenerative diseases, including certain types of cancer, arthritis, cataracts and heart disease, as well as the aging process itself.
